

Guppy's Chocolates are Peter and Fran Guppy and we are passionate about all things chocolate!

We are a family-run business who have been handmaking chocolates since 2010. What started out as a hobby, became a full-time job after we decided to give up our jobs in the financial services sector and make our dream of having our own chocolate factory a reality.

All our chocolates are lovingly made by Peter and packaged, by hand, by our small team of staff. We have worked really hard to produce fantastic tasting, quality chocolates which are packaged beautifully and we are really proud to be continuing the tradition of families making chocolate in York.
